

SME型脱水机系列

SME type dehydrator series

SME301系列大容量系列脱水机是按国际标准制作，其控制部分采用进口变频调速控制。具有合理的进出布装置。具有容量大、耗能小和完善的防震、定时、自动和安全控制系统。

SME301 series large-capacity series dehydrator is manufactured according to international standards, and its control part adopts imported frequency conversion speed control. It has a reasonable cloth in and out device. It has a large capacity, low energy consumption and complete anti-vibration, timing, automatic and safety control systems.
